### DETAILED ACTION

1. This Office Action is in response to the Amendment file on January 27, 2006, which papers have been placed of record in the file.
2. Claims 55-89 and 109-121 are pending in this application.

### *Response to Arguments/Amendment*

3. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.
4. Applicant's arguments with respect to claims 55-89 and 109-121 have been considered but are moot in view of new grounds of rejection.

### *Claim Rejections - 35 USC § 103*

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 109-121 are rejected under 35 U.S.C. 103(a) as being unpatentable over Buist, U.S. Patent No. 6,408,282.

Regarding to claims 109-121, Buist discloses a device **for** processing and displaying market data, comprising:

an interface **for** receiving first market data feed and a second market data feed...

a screen **for** displaying a price axis...

a processor **for** calculating the plurality or prices...

Examiner submits that the claimed invention recites an intended use, although Buist fails to discuss the intended use that calculating and displaying prices of two commodities at the same display, Buist's computer device is capable of calculating and displaying prices of two commodities at the same display. Therefore, it would have been obvious to one with ordinary skill in the art at the time the invention was made to modify Buist's to include the feature above for the purpose of calculating and displaying prices of two commodities at the same display.

"The recitation of a new intended use for an old product does not make a claim to that old product patentable." *In re Schreiber*, 44 USPQ2d 1429 (Fed. Cir. 1997).

### ***Allowable Subject Matter***

7. Claims 55-89 are allowed over the prior arts cited record.

### ***Conclusion***

8. Claims **55-89** are allowed.

Claims **109-121** are rejected.
